## Don't Guess, test!

- The best way to determine your personalized wellness plan is to have a baseline for certain key markers based on your current symptoms and health goals. Without numbers, we can only make assumptions based on how you feel, which may or may not be accurate.
- How would it feel to finally get to the root cause of your underlying health conditions and start to feel alive again?
- These functional medicine lab tests are often not easily available at most conventional doctor's offices. They can be done in the privacy of your own home and easily mailed back to the lab.
- Bundled pricing is available for 2 or more tests.
- Pricing includes a 30-minute consultation to review and discuss your results. Client is provided recommended protocol(s) and a summary email post consult.

<sup>\*</sup> Pricing will vary depending on exact lab tests that you determine you need/desire. Optional add ons include: vit. D, insulin and HbA1c.
